CTA 103 Public Speaking	3	*MAT 221 Calculus and Analytical Geometry	5
*ENG Literature Course	3		

*These courses have pre-requisites that must be met prior to enrolling in the course. Please consult the course schedule to review pre-requisites. Pre-requisites can be met by taking the UW System Placement Test or with AP Scores or a prior college course (unofficial transcript needed if taken somewhere other than UW Colleges).

NOTES:

1. **PRE-Health is not a major.** You will want to explore the STEM fields and research various health fields to narrow down your focus.
2. **This guide reflects typical requirements for various pre-health paths. Course requirements will differ from one program to another. You are responsible for consulting the university to which you plan to transfer for details on earning a bachelor's degree as well as the graduate school(s) you plan to apply to for earning an advanced degree.**
3. Courses listed on this plan are based on availability online, additional courses may be available through other UW Colleges campuses.
4. Please consult your academic advisor for assistance in course selection and transfer planning.

You are responsible for your academic plan. If you are transferring to a campus within the University of Wisconsin System, consult the Transfer Information System (TIS) website at www.uwsa.edu/tis regularly for updates. Confirm your academic plan with an advisor at the campus to which you plan to transfer.

This plan is subject to change without notice. Review your progress periodically with your advisor.
