# Schoolwide SEL: The Process

# CASEL: The Schoolwide Implementation Process

## The Schoolwide SEL Process

We recommend beginning with Focus Area 1A and moving at a pace that is best for your school.

### Organize

---

Developing a strong foundation for SEL helps ensure that efforts are sustained long term. This requires engaging the entire school community and developing a coordinated plan for implementation.

#### FOCUS AREA 1A

### **Build Awareness, Commitment, and Ownership**

Create an effective SEL team to lead the work and get all staff and stakeholders excited about SEL.

#### FOCUS AREA 1B

### **Create a Plan**

Review your current level of implementation, set goals, and plan for professional learning, resources, and communication.

# SEL Implementation

## INDICATORS OF SCHOOLWIDE SEL

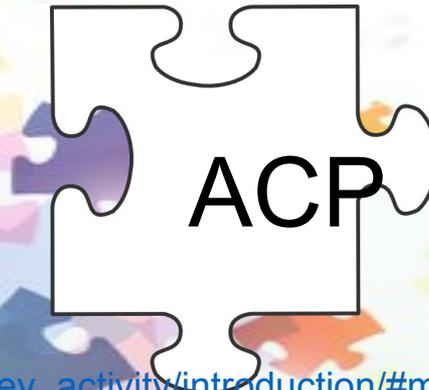

Schoolwide SEL is a systemic approach to integrating academic, social, and emotional learning across all school contexts. This approach provides a learning environment that infuses SEL into all aspects of instruction and promotes equitable outcomes for all students. Central to this system is high-quality professional learning and the use of data for continuous improvement. When fully implemented, schoolwide SEL contributes to more successful and equitable outcomes for young people, and is evidenced by the following indicators:

CLASSROOM		<b>Explicit SEL instruction</b>	Students have consistent opportunities to cultivate, practice, and reflect on social and emotional competencies in ways that are developmentally appropriate and culturally responsive.
		<b>SEL integrated with academic instruction</b>	SEL objectives are integrated into instructional content and teaching strategies for academics as well as music, art, and physical education.
SCHOOL		<b>Youth voice and engagement</b>	Staff honor and elevate a broad range of student perspectives and experiences by engaging students as leaders, problem solvers, and decision-makers.
		<b>Supportive school and classroom climates</b>	Schoolwide and classroom learning environments are supportive, culturally responsive, and focused on building relationships and community.
		<b>Focus on adult SEL</b>	Staff have regular opportunities to cultivate their own social, emotional, and cultural competence, collaborate with one another, build trusting relationships, and maintain a strong community.
COMMUNITY FAMILY		<b>Supportive discipline</b>	Discipline policies and practices are instructive, restorative, developmentally appropriate, and equitably enforced.
		<b>A continuum of integrated supports</b>	SEL is seamlessly integrated into a continuum of academic and behavioral supports, which are available to ensure that all student needs are met.
		<b>Authentic family partnerships</b>	Families and school staff have regular and meaningful opportunities to build relationships and collaborate to support students' social, emotional, and academic development.
		<b>Aligned community partnerships</b>	School staff and community partners align on common language, strategies, and communication around all SEL-related efforts and initiatives, including out-of-school time.
		<b>Systems for continuous improvement</b>	Implementation and outcome data are collected and used to continuously improve all SEL-related systems, practices, and policies with a focus on equity.
